No. 6. DECEMBER 1971

3, 6, 11 Muscle glycogen utilization during prolonged exercise on successive days.
   D. L. Costill, R. Bowers, G. Branam, and K. Sparks

3, 6, 8 Plasma renin activity in supine muscular exercise.
   J. C. Bunn and J. Mead

2, 6, 11 Physiological aspects of rowing.
   E. C. Hosick, D. L. Clark, and B. S. Rosner

2, 6, 11 Control of ventilation during speech.
   J. C. Bunn and J. Mead

1 Pulmonary artery-left heart circulatory transfer function in hemorrhagic hypotension
   M. A. Shaffer, M. Soltero, and H. Weinstein

1, 6, 8 Effect of local cooling of the legs on tolerance to positive acceleration.
   W. R. Keatinge and P. Howard

1, 6, 8 Physiologic effects of 2,3-DPG-depleted red cells with high affinity for oxygen.
   G. R. Valei and F. B. Collins

1 Peripheral modifications to the central drive for sweating.
   F. R. Nadel, J. W. Mitchell, R. Saltin, and J. A. J. Stohvijl

SECTION

CONTENTS OF VOLUME 31

No. 6. DECEMBER 1971

1 Pulmonary artery-left heart circulatory transfer function in hemorrhagic hypotension
   M. A. Shaffer, M. Soltero, and H. Weinstein

1, 6, 8 Effect of local cooling of the legs on tolerance to positive acceleration.
   W. R. Keatinge and P. Howard

1 Peripheral modifications to the central drive for sweating.
   F. R. Nadel, J. W. Mitchell, R. Saltin, and J. A. J. Stohvijl

5, 6, 11 Muscle glycogen utilization during prolonged exercise on successive days.
   D. L. Costill, R. Bowers, G. Branam, and K. Sparks

3, 6, 8 Plasma renin activity in supine muscular exercise.
   J. C. Bunn and J. Mead

2, 6, 11 Physiological aspects of rowing.
   E. C. Hosick, D. L. Clark, and B. S. Rosner

2, 6, 11 Control of ventilation during speech.
   J. C. Bunn and J. Mead

1 Pulmonary artery-left heart circulatory transfer function in hemorrhagic hypotension
   M. A. Shaffer, M. Soltero, and H. Weinstein

1, 6, 8 Effect of local cooling of the legs on tolerance to positive acceleration.
   W. R. Keatinge and P. Howard

1 Peripheral modifications to the central drive for sweating.
   F. R. Nadel, J. W. Mitchell, R. Saltin, and J. A. J. Stohvijl

SPECIAL COMMUNICATIONS

8, 11 A stochastic signal method of measuring the dynamic mechanical properties of muscle.
   W. Halpern and N. R. Alpert

4, 9 Magnetically coupled micromanipulator for use within a sealed chamber.
   S. C. Baer and S. M. Crain

1, 4 Measurement of changes in blood flow and blood volume in the splanchic circulation.
   G. A. Brooksby and D. E. Donald

   N. R. Frank, J. Mead, and J. I. Whittenberger

7, 8, 9 A simple multichannel spike height discriminator.
   J. A. Freeman

1, 8 Comparison of capsule and wick techniques for measurement of interstitial fluid pressure.
   J. W. Prather, D. N. Bowes, D. A. Warrell, and B. W. Zweifach

4, 5, 8 New liquid-diet feeder for primates.
   B. C. Walke, D. J. Campbell, and R. A. Hillmann

1, 11 Cantilever transducer for continuous measurement of arterial diameter in vivo.
   J. P. Margo, R. H. Cox, and L. H. Peterson

6 Design of an 18-unit rodent activity treadmill cage and stimulation system.
   W. C. Nielsen, Jr., H. J. Kreywicki, H. L. Johnson, and C. P. Conasonia

5, 6, 8 Use and evaluation of gas chromatography for determination of deuterium in body fluids.
   W. C. Nielsen, Jr., H. J. Kreywicki, H. L. Johnson, and C. P. Conasonia

6 Nomographic approach for the estimation of heart rate recovery time after exercise.
   T. Chorbotain

1, 6, 8 Pneumatically operated withdrawal and injection system.
   W. P. Fife

CORRIGENDA

Volume 31, July 1971

\[ W_1 = 0 \quad \Delta t > T \]

\[ W_1 = 0.3333(1 - \exp 0.25(1 - T/\Delta t)) \quad \Delta t > T \]
