**CORRIGENDA**

*Volume 42, January 1977*

Page 88: D. B. Gail, G. D. Massaro, and D. Massaro. "Influence of fasting on the lung." Page 89: in Table 1, column 2, the sixth value down should read 0.50.

Page 111: L. D. Pengelly. "Curve-fitting analysis of pressure-volume characteristics of the lungs." Page 113: Eq. 2 should read

\[
\ln \left( 1 - \frac{V}{V_0} \right) = \ln K_0 - K_1 P
\]

and the equation for zero pressure should read

\[
P_z = \frac{\ln K_0}{K_1}
\]

*Volume 42, February 1977*

Page 273: D. H. Horstman and L. E. Banderet. "Hypoxia-induced metabolic and core temperature changes in the squirrel monkey." Page 275: Figure 4 should include data for Pa\textsubscript{CO\textsubscript{2}} and pH\textsubscript{a}.
