CORRIGENDA

Volume 60, January 1986
Page 191: Esther P. Hill. “Inhibition of carbonic anhydrase by plasma of dogs and rabbits.” Page 192: the eighth through the eleventh sentences of paragraph 2 should read: One milliliter of reaction solution (see below) was placed in a small reaction vessel and stirred with a magnetic stirrer. One tenth milliliter of CO₂-saturated saline was added . . . .

Volume 61, August 1986

Volume 61, October 1986
Page 1518: R. W. Hoskin, M. J. Melinyshyn, T. T. Romet, and R. C. Goode. “Bath rewarming from immersion hypothermia.” Page 1518: the 14th through the 16th lines of the abstract should read: It was concluded that trunk-only rewarming is not superior to whole-body bath rewarming as a therapy for mild immersion hypothermia. . . .

Page 1521: the seventh and eighth lines of the last paragraph of DISCUSSION should read: Thus, it could be argued that the real physiological afterdrop was the difference . . .
